

BIMplement

A European project setting up a large-scale and flexible training on BIM related skills and competences for everybody in the building sector

www.bimplement-project.eu

HOW? BIMplement aims to achieve an improved quality for nZEB construction and renovation by setting up large scale training, Continuous Professional Development and BIM-enhanced qualification schemes, strengthened with hands-on and BIM-enhanced workplace tools.

WHAT? Testing the methodology by addressing selected nZEB related topics: ventilation and airtightness.

WHERE? The methodology will be tested in BIM-learning centres and implemented in experimental building sites in France, Spain, the Netherlands, Lithuania and Poland.
