Report: **D5.7 Update of PROF/TRAC open training platform with the project results**

Prepared by: Mantas Jonauskis, RIMC
Date: 2020-10-29
Partners involved: RIMC, HIA, IVE, ACE

This project has received funding from the European Union's 'Horizon 2020' framework programme for research and innovation, under Grant Agreement No. 745510.

1. INTRODUCTION 2

2. UPDATE OF PROF/TRAC OPEN TRAINING PLATFORM WITH THE PROJECT RESULTS 3

1. INTRODUCTION

Within H2020 construction skills project PROF/TRAC an easily accessible and open training platform <http://proftrac.eu/> had been developed with the following functionalities:

- Information pool about the European training programme, trainers, and training organisations.
- Information about professional profiles needed for nZEB construction.
- Information pool of certified buildings professionals (engineers, architects who have successfully completed the training.
- European Mutual Learning Platform on nZEB construction and retrofitting for building professional with online training tools.

PROF/TRAC with 1248 recorded users is managed by third party REHVA. REHVA is a HVAC association that develops and promotes energy efficient, safe, and healthy technology for mechanical services of building.

As this open platform has been continued after the PROF/TRAC project duration and because of its open modular structure this is a very good environment to continue the exploitation of the outcomes of the BIMplement project. Four of the BIMplement participants were also participating in PROF/TRAC, which ensures direct links.

Task 5.4 Exploitation by using the PROF/TRAC open training platform (Task leader: RIMC, Partners involved: HIA, IVE, ACE) had been implemented with the PROF/TRAC updates, including the BIMplement methodology, the enhanced tools, supporting methods and means for the target groups, training courses, guides developed during the project. PROF/TRAC also includes the internal monitoring and quality control and the feedback loops of the pilots.

PROF/TRAC platform contains the following BIMplement results:

- D4.1 List of criteria and of the selected territories.
- D4.5 Tools & Training contents for Building companies, including BIMplement Kit and 'Identification table'.
- D5.2 A self-instruction guide for implementing new technical or conceptual topics and for implementation in the other Member States.
- D5.5 BIMplement methodology guide.
- D5.6 Implementation service concept.
- Catalogue of constructive elements v.04.00.
- nZEB Buildings specificities and regulations.

Section 2 indicates all updates that have been introduced to PROF/TRAC in relation to results of BIMplement, including the links to the platform.

2. UPDATE OF PROF/TRAC OPEN TRAINING PLATFORM WITH THE PROJECT RESULTS

The following items have been updated within PROF/TRAC platform, <http://proftrac.eu>:

No	Action points	Results	Link to PROF/TRAC
1.	Complement with the BIMplement methodology	Deliverable D5.6 was uploaded to PROF/TRAC	http://proftrac.eu/training-material/search-training-material/view/p-project/bimplement-implementation-service-concept-1/p-act/show/p-ctrl/RelevantProject.html
		Deliverable D5.5 was uploaded to PROF/TRAC	http://proftrac.eu/training-material/search-training-material/view/p-project/bimplement-methodology-guide-on-qualification-methodology-methodology-for-raising-awareness-and-me/p-act/show/p-ctrl/RelevantProject.html
		Deliverable D5.2 was uploaded to PROF/TRAC	http://proftrac.eu/training-material/search-training-material/view/p-project/bimplement-a-self-instruction-guide-for-implementing-new-technical-or-conceptual-topics-and-for-impl/p-act/show/p-ctrl/RelevantProject.html
